## FRONTEND DEVELOPER

Frontend Developer with 1 year of hands-on experience building real-world web applications using React.js, Firebase, and Tailwind CSS. Strong in building responsive UIs, managing data via Firestore, and integrating RESTful APIs. Experienced in product-based development for EMR systems, job portals, and e-commerce apps. Passionate about clean UI, team collaboration, and continuous learning.

---

## PROFESSIONAL EXPERIENCE

### Soft Coding Solutions Frontend Developer

Jan 2024 - Dec 2024

Worked as a Frontend Developer for 1 year, primarily using React.js to build responsive and dynamic web

- applications. Collaborated with backend teams to integrate APIs, ensured cross-browser compatibility, and focused on

delivering user-friendly UI components with clean, maintainable code.

Accomplishments:

- Developed and deployed dynamic, responsive web applications using React.js, Tailwind CSS, and Firebase, improving user engagement and load times.
- Integrated and tested RESTful APIs using Postman and browser DevTools, ensuring smooth backend communication and faster debugging cycles.
- Managed source control with Git and GitHub, following versioning best practices and facilitating collaborative
- development.

Designed and implemented modern UI/UX interfaces using Figma, ensuring cross-browser compatibility, accessibility (WCAG standards), and mobile responsiveness.

### NetReach Softwares — Frontend Developer

Mar 2025 - May 2025

Worked as a Frontend Developer for 3 months, mainly involved in maintaining existing web applications built with JSP. Focused on bug fixes, minor enhancements, and ensuring smooth functioning of client projects.

- Performed maintenance and support for JSP-based applications, resolving UI and functional issues reported by clients.
- Fixed bugs and optimized existing code to improve stability and performance of applications.

## EDUCATION

Katgara Polytechnic, Bordi  
Diploma in Computer Engineering

2018 - 2021

SAL Engineering & Technical Institute  
Bachelor of Computer Science & Engineering

2021 - 2024

## TECHNICAL SKILLS

HTML	Vercel (Web Hosting)	React JS	Figma (UI / UX Design)
CSS	Rest API	JavaScript	Postman (API)
Tailwind CSS	Chrome DevTools		
Github	Responsive Designs		

---

## PROJECTS (PERSONAL)

### Job Portal (Static Site)

Live Demo: <https://naukri-dekho.vercel.app/Application>

Tech Stack: React.js, Tailwind CSS, HTML, CSS, JavaScript, GitHub Pages

Description: A static job portal with a landing page featuring company and job listings. Includes four sections:

- o Detailed job descriptions.
- o Candidate application statuses.
- o Notifications for candidates.

### Medical EMR (Work in Progress)

Live Demo: <https://medical-emr.vercel.app>

A full-stack EMR system to manage patients, appointments, and clinical records.

1. Real-time patient record updates using Firebase Firestore.
2. Role-based secure login with Firebase Auth.
3. Responsive UI with Tailwind CSS+ Figma wireframes.
4. Component-based architecture for scalable code.

---

## PROJECTS (INDUSTRIAL WORK)

### Location App

A platform for filmmakers to explore, request, and manage shooting locations.

1. Admin dashboard for managing listings and user queries.
2. Intuitive UI with React routing and modular state handling.

### E-Commerce Platform

Multi-role shopping platform with admin, vendor, and user interfaces.

1. Product catalog, cart, checkout, and real-time order tracking.
2. Admin features include product addition and vendor coordination

### University Placement Platform

College portal where admins post jobs, students apply, and companies shortlist candidates.

1. Designed for scalable role management with clean UI.
2. Real-time application tracking across roles.

### Expense Management CMS

Centralized system to manage employee salaries, taxes, and GST filing.

1. Built for structured data entry and compliance tracking.
2. Auto-calculations and export-ready dashboards.
